

To Whom It May Concern,

INVESTMENT in education can and will make a difference for kids in Oregon. We are not just choosing to invest in these kids, but we are investing in OUR future.

We need support for HB 3427. Without sustaining education we are sending that message that it's not important. If we want our country to get better, we have to do this by teaching our students, teachers, and community that we value learning and striving to be the best that we can be.

Thank you,
Morgan Green
