I'm writing to express my support for HB 2001 in order to legalize housing for more Oregonians, repeal exclusionary zoning, provide less expensive housing, and help fight climate change.

HB 2001 is critical for addressing the housing shortage. It's critical for addressing homelessness. It's critical for addressing displacement and affordability. It's also critical for addressing climate change and leaving a more equitable, well-designed cities for future generations.

Thank you for your time,
