people's needs. Health, income, employment, age, race, gender, immigration status and other
factors should not create any barriers to health care or disparities in health outcomes.
(c) The health care system must be accountable to the people it serves. It must ensure
effective delivery of care and stewardship of resources that improve individual and overall
population health and provide the means to maintain human rights standards in the distrib-
ution and delivery of health care.
(d) The health care system must be open to the public with regard to information,
decision-making and management.
(e) The health care system must enable meaningful public participation in all decisions affecting people’s right to health care.

(f) Health care, as a fundamental element of a just society, must not be rationed by cost as a commodity in private markets, but must be secured to the people on an equitable basis by public means, similar to public education, public safety and public utilities.

(3) The plan shall pay the costs of health services that are medically necessary or medically appropriate for the maintenance of health, the prevention of health problems and the diagnosis, treatment or rehabilitation of health conditions, within the scope of coverage prescribed by the board, including but not limited to the following categories of health services:

(4) The board shall determine the details for the plan’s coverage of health services, including schedules for preventive, diagnostic and health maintenance services and prescription drugs, in accordance with the following criteria:

(a) The plan must cover all services required by Medicare, Medicaid or the Patient Protection and Affordable Care Act (P.L. 111-148), as amended by the Health Care and Education Reconciliation Act (P.L. 111-152), and by any other federal program that provides funds for the plan.

(b) The plan must cover all services that were covered by the health benefit plans offered by the Oregon Educators Benefit Board and the Public Employees’ Benefit Board on the effective date of this 2019 Act, unless there is strong medical evidence that coverage of specific services should be discontinued.

(c) The board shall consider:

(A) The short-term clinical effectiveness and cost-effectiveness of a service, based upon
multiple sources of evidence;

(B) Safety;

(C) In addition to symptoms and the immediate causes of symptoms, the underlying factors that result in the need for care; and

(d) The plan must cover health services that:

(A) Are evidence-based and cost-effective in promoting health; and

(B) Emphasize disease prevention and health promotion.

(e) Subject to the requirements to provide comprehensive care and all medically necessary and medically appropriate care, the board may set limits on the reimbursement paid for medical equipment and devices in order to encourage the use of the most economical equipment and devices. If the board limits the reimbursement paid for medical equipment and devices, the board shall have a procedure that allows a plan participant to apply the reimbursement amount toward the cost of a more costly type of equipment or device if, in the discretion of the participant's health care provider, the equipment or device is medically necessary or medically appropriate for the participant's health needs.

(f) Health care services that are cosmetic may be covered if necessary for the participant to obtain employment, to improve mental health or to function in society.

(5) Copayments, deductibles or other forms of cost-sharing may not be imposed on participants under the plan.

(6) Participants in the plan may choose any health care provider licensed, certified or registered in this state or in another state for services within the scope of the provider's license, certification or registration.

(9) The plan may not discriminate against any health care provider who is licensed, certified or registered in this state and who is acting within the provider's scope of practice.

(11) Except as provided in subsection (4)(e) of this section, a health care provider shall accept payment from the plan for services covered by the plan as payment in full and may not bill a patient for an amount exceeding the reimbursement amount under the plan.

(12)(a) Administrative costs of the plan may not exceed:

(13) A participant’s loss of eligibility due to no longer meeting the criteria specified in section 1 of this 2019 Act is a qualifying event for the purpose of continuation coverage required by 29 U.S.C. 1161. The Oregon Health Authority shall be considered to be a plan sponsor of a group health plan and shall notify the participant losing coverage and the dependents of the participant losing coverage of the option to continue coverage at the participant’s own expense.

SECTION 3. No later than October 1, 2023, the Health Care for All Oregon Board established under section 7 of this 2019 Act shall develop and submit to the Legislative Assembly a recommendation for the coverage of long term care services by the Health Care for All Oregon Plan.

SECTION 4. Sections 5 and 6 of this 2019 Act are added to and made a part of the Insurance Code.

(10) The intent of the Legislative Assembly in adopting this section is to reserve benefits for different types of care to encourage cost effective care and to ensure continuing access to levels of care most appropriate for the insured’s condition and progress. This section does not prohibit an insurer from requiring a provider organization certified by the Oregon Health Authority under subsection (7) of this section to meet the insurer’s credentialing requirements as a condition of entering into a contract.
