Subject: bold action needed for climate change bill SB 1530
Date: Saturday, February 1, 2020 1:38:48 PM

I am in support of critical and MORE BOLD action due to our climate crisis.

I am a retired MD, a mother of a 17 year old daughter and an active citizen.

We are in a climate crisis, which is like a slow atomic bomb, mushrooming out now. The crisis is real, we've all seen it every season increasing. I don't believe that our world will be here in 2050, unless we make critical changes now. We can't wait. Please take bold action now. Don't let money from nefarious capitalists with short term financial goals dissuade you from caring for the earth and all the beings and ecosystems that depend on it.

Thank you for being thoughtful, honest and decisive about what truly is required of us now.
