I'm Ryan Perkins, a resident of Keizer, OR. I actually live about six minutes away from the Covanta waste plant. I'm writing to ask you to reject House Bill 4049, and not certify the Covanta Marion plant for renewable energy credits. We're seeing a climate crisis unfold around the globe, and Covanta Marion is one of Oregon's biggest CO2 producers. We need to transition as quickly as possible from burning our waste and exacerbating already rising CO2 levels to carbon neutral or carbon negative solutions.

Please reject House Bill 4049.
