Please stop trying to ruin oregon. These bills you are trying to pass are insane and unfair. Everything you eat comes from a farmer, who works their ass off to harvest a crop or animal. They work long hours and take no days off. They do something they love that's been passed down. You can't just try to take that away or tax them to death. Every piece of paper you use to write these stupid ideas on was a tree cut down by a timber faller and hauled to the mill by a truck driver. They work hard and take care of the forest better than you. Don't take that away, stop taxing everyone to death. Stop with this bill. Stop with ruining oregon.
