Good morning

I am writing to you this morning to implore you to STOP this cap and trade bill! What this bill does is saddle the entire tax paying population of Oregon with a cost that will send our state into poverty. We simply can't afford it. Timber unity gave you a four point plan yesterday that does exactly what you and our governor wants without costing Oregonians one dime. The fact is, I fear is that money and not a solution is what you all are after. Almost 10,000 people and over 1100 trucks showed up yesterday in a PEACEFUL assembly to protest this new tax. I know by your own admission that you feel we are too stupid to vote on this bill- you are wrong! I think you continue to forget that you work for us and not the other way around. Anything that we are required to pay for should be voted on by us!

I am a 5th generation Oregonian and I love this state and my heritage. You people are continually chipping away at my life and my children and grandchildren's lives. It must stop before we end up like California. All you need to do is look at how the democrats in that state have ruined it to see that all of this is a bad idea.

I am fully against this bill and not being able to vote on it
