Please vote no on cap and trade !!!!!

Born and raised Oregonian and proud to be small town ! But if this cap and trade bill goes through I'm not sure if the small town I am in will last . I live in Coos county and it has already been devastated once in the past by the environmental spotted owl act . This bill to me seems nothing more then another way to tax the people and put the money into Portland and Salem . If you can't get rid of this bill the vote needs to go to the people !!! The emergency clause is just more b.s . I was informed that several people of timberunity met with governor Brown and discussed carbon emissions with her and even left a plan of ways to cut emissions, NOT TAX the people and ways to start and keep jobs in Oregon !! I am also for bettering the environment but this is not the way to do it . This is a money bill and nothing more . So please vote no and kill this bill or let the people decide !!!!!
