Subject: Oppose Costly Cap-and-Trade in SB 1530
Date: Saturday, February 8, 2020 9:20:05 AM

Dear Chair Dembrow,

I urge you to vote no on cap and trade on the simple premise that you should not tax something to dissuade people from doing something. If you want to help work on an actual substitute energy source. There is one to take the place of fossil fuels to my knowledge. Why make people's lives harder to force them to do something. Incentivize them to find a alternative source.

Sincerely,

Aaron Shurts
