

We urge you to vote no on SB1530. This bill will provide massive unfavorable economic impact on some of our smallest and lowest income communities. Oregon is already one of the greenest states with extremely low CO2 emissions. While improving our emissions and environmental impact is important, crippling our State's economy with massive taxes is not the answer.

We urge you to listen to the citizens you represent, not just the ones with your party's letter in front of their names".

Thank you
