

I write to you in opposition of SB 1530 -Cap and Trade. I find it disingenuous that this bill has been introduced during the short session to be rushed through without adequate consideration. Additionally, I request the emergency clause be removed. Overuse of the emergency clause is a blatant attempt to remove the ability of the Oregon voter from having a say in legislation with significant proposed tax burden across Oregon.

Turn these bills over to Oregonians to vote. Stop abusing the emergency clause and again, I urge a No on SB 1530.

Thank you,
T.Kristensen
