

I am Bryan Hodson, clinical mental health counselor, from HD21.

Cambridge Dictionary definition of “marginalization”

“the act of treating someone or something as if they are not important”

Miriam-Webster

“to relegate to an unimportant or powerless position within a society or group”

Marginalized groups can be found in many if not all cultures, civilizations, and countries throughout history. It is a reflection of those who are in power that show contempt for those who are not.

As an example, Senator Fagan’s comments from Feb 6th Housing Committee fall in line with remarks aimed at marginalized people.

As a therapist, I work with many populations, and people who feel marginalized is a common experience to me. The groups the Timber Unity rally show every indication of a marginalized people who are terrified of this super majority.

My question is will you feel comfortable aiming such a monstrous financial burden on the backs of this marginalized group?

Not this bill, not this time. Send it to the people to vote.

My name is Bryan Hodson, and I am running as a republican for house district 21.
