---

Hello, My name is Shawnie Wheeler. I am an owner of Coquille Truck & Auto Supply and MP Auto & Rigging in Coos County. We employ 10 people and will be directly impacted by this bill. We deliver parts to our customers from both stores all day long, six days a week. Our customers are loggers and ranchers. Every single person will see an increased cost in goods purchased. And for what? This bill does not do one thing to reduce our carbon footprint, which is so low now as to be negligible. It is a tax! One we have the right to vote on.

Sincerely, Shawnie Wheeler
