

Ok, let's seek a solution. But let's slow down and find a reasonable solution with balance, common sense and good judgment.

Is Oregon the big offender here? With regard to recent Carbon Tax legislation let's not bypass Oregon voters and leave this solely to money and power hungry Legislators. It was a dirty trick to label Carbon Tax legislation as an emergency to bypass approval by Oregon voters. We have been working on this for a while now this is not an emergency. There is no IMMEDIATE IMMINENT threat to life and property in Oregon. Not one that we can only solve with a fascist Legislative decision.

Sincerely  
Keith Bentley  
Nehalem, Oregon
