Subject: Cap and trade
Date: Monday, February 10, 2020 12:57:46 PM

It is appalling to me that you as politicians are elected to office and are supposed to be working for the people. Yet you will not listen to the people and only want to devastate our lives forcing through legislation that would only hurt us. We don't need you in every area of our lives we are smart enough to realize the type of legislation that cap and trade is. Stop it with your overpowering self-centered bully pulpit crap you don't deserve the power you have and you care nothing for the people of your city get out of office!!
