Senate Bill 1549

Printed pursuant to Senate Interim Rule 213.28 by order of the President of the Senate in conformance with pre-session filing rules, indicating neither advocacy nor opposition on the part of the President (at the request of Senate Interim Committee on Health Care)

SUMMARY

The following summary is not prepared by the sponsors of the measure and is not a part of the body thereof subject to consideration by the Legislative Assembly. It is an editor's brief statement of the essential features of the measure as introduced.

Directs Oregon Board of Dentistry to issue dental therapist license to qualified applicant. Prohibits unlicensed use of title “dental therapist” and practice of dental therapy. Provides exceptions to prohibition. Adds dental therapist member to board.

Becomes operative September 1, 2020.

Declares emergency, effective on passage.

A BILL FOR AN ACT

Relating to dental therapist licensure; creating new provisions; amending ORS 679.010, 679.140, 679.170, 679.230 and 679.250 and section 1, chapter 716, Oregon Laws 2011; and declaring an emergency.

Whereas good oral health is an integral piece of overall health and, well-being, and without treatment, dental disease compromises overall health and requires increasingly costly interventions; and

Whereas most dental disease can be prevented at little cost through routine dental care and disease prevention; and

Whereas dental-related issues are a leading reason that Oregonians seek care in hospital emergency departments, which have become the source of care for many Oregonians, especially in uninsured and low-income populations; and

Whereas dental therapists are evidence-based primary dental care providers that expand access to oral health care for all Oregonians, and dental therapy is a strategy to address racial, ethnic and economic disparities in overall health and rural health care access gaps; and

Whereas the employment of dental therapists increases workforce diversity in health care and expands career opportunities for new and existing members of the dental care workforce; and

Whereas dental therapists will meet the needs of local communities as they work under the direction of licensed dentists, and will be incorporated into the dental care workforce and used to effectively treat more patients; and

Whereas incorporating the Commission on Dental Accreditation's standards for new dental therapy education will pave the way for Oregon educational institutions to create accredited programs for which students can qualify for financial aid; and

Whereas it is critical that communities with access to dental therapists through the Oregon Health Authority's dental pilot projects not be adversely affected, and dental therapists currently serving in their own communities through these pilot projects be able to continue their practice uninterrupted; now, therefore,

Be It Enacted by the People of the State of Oregon:

NOTE: Matter in boldfaced type in an amended section is new; matter [italic and bracketed] is existing law to be omitted.
New sections are in boldfaced type.
